Title

KEEE'S ONLINE TECH STORE

Introduction

Computer and other technology shops are one of the most in demand businesses not only here in the Philippines. Nowadays, computer usage is really in demand because of the fast changing technology that the people are so fond. Some have personal computers and laptops that they use not only for their leisure time but also for doing paper works and other works that could be done with the use of technology. As the world frequently changes, technology around us evolve with it.

We can all get our latest technologies through Tech shops which can be found inside malls and other establishments. But, Due to the current pandemic that the world is currently facing, how do we go to these said stores? Is it worth the risk to go outside just to buy and see it personally?

This is where my proposal brings us. I introduce to you "*Keee's Online Tech Store*", a web application that gives you ease in buying necessary and up-to-date technologies of your needs.

Objectives
